

2.2 CM

A technical drawing of a vertical rod. The rod is shown in a side view, with a central vertical shaft. At the top and bottom of the shaft, there are small rectangular components, possibly caps or connectors. A horizontal dimension line is drawn across the shaft, indicating a diameter of 2.2 CM. A vertical dimension line is drawn to the right of the shaft, indicating a total height of 100 CM. A break symbol, consisting of two curved lines, is located on the shaft to indicate that the drawing is not to scale and that the rod is much longer than shown.

100 CM
